

# SAFETY DATA SHEET

Issue Date: 12-Sep-2014

Date prepared 12-Sep-2014

Version 1

### 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

| Product Name:              | PET adhesive tape                                                                                                                                     |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Identifier         | NO3161FR2 75 Blue                                                                                                                                     |
| Product code               | P020-00030599-0023                                                                                                                                    |
| Supplier Address           | Nitto Denko Corporation Toyohashi Plant<br>18, Hirayama, Nakahara-cho, Toyohashi, Aichi, 441-3194, Japan<br>TEL.+81-532-41-7242, FAX. +81-532-41-7284 |
| Department responsible     | Quality Management Dept. Administration Div.                                                                                                          |
| Emergency Telephone Number | +81-532-41-1121(TOYOHASHI PLANT)                                                                                                                      |
| Recommended Use            | For electric insulation and protection                                                                                                                |
|                            | 2. HAZARDS IDENTIFICATION                                                                                                                             |

Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

### **3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Single Substance or Mixture article                                                       |            |                                       |
|-------------------------------------------------------------------------------------------|------------|---------------------------------------|
| Chemical Name                                                                             | CAS No     | Concentration or concentration ranges |
| Polyethylene terephthalate                                                                | 25038-59-9 | 65-75                                 |
| Acrylic resin                                                                             | -          | 25-35                                 |
| Antimony trioxide                                                                         | 1309-64-4  | 1-3                                   |
| * The exact percentage (concentration) of composition has been withheld as a trade secret |            |                                       |

#### **4. FIRST AID MEASURES**

| IF INHALED<br>skin                 | Will not occur<br>In the case of skin irritation or allergic reactions see a physician<br>Peel slowly, then rinse in water.   |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| Eyes                               | Immediately flush with large amounts of water for at least 15 minutes. Examination and treatment by a physician if necessary. |
| Ingestion                          | Immediately induce vomiting and then consult a doctor.                                                                        |
| Most important symptoms/effects,   | No information available                                                                                                      |
| acute and delayed:                 |                                                                                                                               |
| Self-protection of the first aider | No information available                                                                                                      |
| Note to physicians                 | No information available                                                                                                      |

## **5. FIRE-FIGHTING MEASURES**

| Fire extinguishing agent           | Water<br>ABC-powder<br>Extinguishing powder                                                         |
|------------------------------------|-----------------------------------------------------------------------------------------------------|
|                                    | Carbon dioxide (CO2)                                                                                |
| Prohibited media                   | No information available                                                                            |
| Special exposure hazards in a fire | No information available                                                                            |
| Specific extinguishing methods     | No information available                                                                            |
| Advice for firefighters            | Due to poisonous gas (chlorine gas and so on) may be occurred, if needed, use Gas mask and Goggles. |

# 6. ACCIDENTAL RELEASE MEASURES

Personal PrecautionsWill not occur. Not specified.Protective equipment and emergency<br/>proceduresWill not occur. Not specified.Environmental PrecautionsWill not occur. Not specified.Methods and materials for containmentWill not occur. Not specified.and cleaning upWill not occur. Not specified.

## 7. HANDLING AND STORAGE

| Handling                      |                                                                                          |
|-------------------------------|------------------------------------------------------------------------------------------|
| Technical measures:           | None in particular                                                                       |
| Local and general exhaust     | Not required for use in normal temperature.                                              |
| ventilation                   | Provide adequate ventilation when performing high-temperature processing.                |
| <u>Comments</u>               | None in particular                                                                       |
| Precautions for safe handling | Persons with sensitive skin may develop a rash from exposure to this sheet. Do not allow |
|                               | REVALPHA or its adhesive to touch your skin.                                             |
|                               |                                                                                          |
| Storage                       |                                                                                          |
| Technical measures:           | None in particular                                                                       |
| Storage Conditions            | Store at room at room temperature and normal humidity away from direct sunlight          |

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| Control parameters<br>Permissible concentration<br>Appropriate engineering controls | Unset<br>Unset<br>Not required |
|-------------------------------------------------------------------------------------|--------------------------------|
| Personal protective equipment [PPE]                                                 |                                |
| Respiratory Protection                                                              | Not required                   |
| Hand Protection:                                                                    | Not required                   |

Hygiene considerations:

Eye protection Skin protection

Storage conditions to avoid

including any incompatibilities

Incompatible Materials: Conditions for safe storage,

Normally not required

Not required

Not required

Avoid high temperature. No data available

Shipping package

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

| Physical State |
|----------------|
| Color          |

Flash point:

Other Data

Upper Lower Vapor Pressure specific gravity solubility

melting/freezing point Boiling Point Boiling point / boiling range

Partition coefficient: **Decomposition temperature** 

Autoignition Temperature:

<u>Odor</u> <u>pH</u>

#### **10. STABILITY AND REACTIVITY**

#### **Reactivity** Possibility of hazardous reactions Conditions to avoid: Incompatible Materials: Hazardous decomposition products:

Stable under normal conditions of use and storage No data available No information available No data available No information available

# **11. TOXICOLOGICAL INFORMATION**

#### Acute toxicity Skin corrosion/irritation Serious eye damage/eye irritation Respiratory or Skin sensitization Germ Cell Mutagenicity **Carcinogenicity Reproductive Toxicity**
